Storage Lockers

- ▶ Anti-Bacterial Powder Coating
- ▶ Latest Metric Specification
- ▶ Welded Frame Design
- ▶ Robust Construction
- ▶ Sloping Top Option
- ▶ Reinforced Doors

These coloured lockers are manufactured to the highest specification. Lockers are welded and riveted in construction. Semi concealed hinges are welded to the door and riveted to the frame, allowing easy replacement of doors. The range of doors are fully strengthened with a door stiffener. The carcass incorporates nesting holes on all sides and a return flange at the base for extra strength and to reduce floor damage. Lockers are manufactured using cold rolled steel. Material thickness specification 0.9mm doors and frame, 0.7mm carcass and shelves. Components are polyester powder coated prior to assembly to ensure all surfaces are protected.

 UK manufactured products.

elite GUARD

Anti-Bacterial Powder Coating 

An effective secondary support to existing cleaning practices

elite GUARD - Anti-bacterial powder coating an effective solution to fight against bacterial contamination for the life of the coating. Independently tested and found to be 99.9% effective against MRSA and E-coli. Also shown to exhibit zero growth for fungi and moulds.

elite GUARD offers the healthcare, food and those users requiring stringent hygienic environments an effective secondary support to existing cleaning practices in the fight against bacterial contamination.
